The information disclosure statements (IDS) filed on 24 October 2007 fail to comply with the provisions of 37 CFR 1.97, 1.98 and MPEP § 609 because a translation of the Japanese office action dated 28 August 2007, as listed on the IDS, was not provided.

The examiner was able to consider those documents as initialed. The IDS has been placed in the application file, but the non-retrievable or missing information referred to therein has not been considered and has been struck accordingly. Applicant is advised that the date of any re-submission of any item of information contained in this information disclosure statement or the submission of any missing element(s) will be the date of submission for purposes of determining compliance with the requirements based on the time of filing the statement, including all certification requirements for statements under 37 CFR 1.97(e). See MPEP § 609.05(a).
